PLANNED SERVICE AGREEMENT

Whether we Repair it, Replace it, or Maintain it, you can count on Middleton for all your heating & cooling needs.

About Preventative Maintenance:

You wouldn't buy a brand new car and never expect to have to air the tires, change the oil, and check out any unusual noises, would you? Well, in the same way it is important to have regular inspections on your home comfort equipment by a qualified technician. Just as a well running car can get the best gas mileage and keep you safe on the road, properly running home comfort equipment will run more efficiently and keep you comfortable and safe in your home.

Even the best equipment, if not maintained properly can cause problems. One of the best ways to avoid problems is to prevent them from occurring. The best way to do that is scheduling regular maintenance. We have highly trained service technicians, qualified to maintain all of your heating and cooling equipment year-round.

We offer a program called Planned Service. It's a preventative maintenance plan that offers 10% discounts off every call, with worry-free scheduling, and priority service. There are no annual or hidden fees. The only time payment is due is when your equipment is serviced. Once you sign up for Planned Service, one of our staff will call to remind you when your equipment is due for service.

If you would like to join our worry-free, discounted rate, Planned Service program, sign and return this form to our office. From there, you can count on us to take care of all your heating and cooling needs.

Benefits of Planned Service:

- Regular service protects your warranty
- Regular service lengthens equipment life by keeping it in good working condition.
- It maintains efficient operation which saves you energy dollars.
- It establishes you as a priority customer
- It assures you of service by experienced and qualified technicians from the company you trust and know will be there when you need them.

Planned Service applies to:

- Commercial Properties**
